PROFESSIONAL SUMMARY

Information Technology student at the Polytechnic University of the Philippines with direct experience in student leadership, software and game development, and technology community operations. Founder of ARK, a student-led game development community, leading organizational development, coordinating collaborative projects, and creating opportunities for peers to build practical skills. Experience spans academic systems development, indie game production coordination, hackathons, and developer event operations. Recognized by StellarPH's PH100 Under 30 initiative and involved in student game projects selected for public exhibition.

EXPERIENCE & LEADERSHIP

Founder & President — ARK **March 2025 – Present**

- Founded and lead a student-led game development community focused on practical learning, peer collaboration, and project creation.
- Develop organizational direction, team structures, onboarding processes, and internal workflows to support collaborative game development.
- Coordinate cross-functional student contributors across gameplay programming, creative production, and community operations.
- Led organizational and production coordination efforts contributing to *Code White: The Observer* being selected for exhibition at PGDX Indie Game Stars 2026.
- Organize internal ideathons, technical sharing sessions, and initiatives connecting student creators with game industry opportunities.

Class Section President — Polytechnic University of the Philippines **October 2024 – Present**

- Represent student concerns and facilitate communication between classmates and faculty across successive BSIT class assignments (BSIT 1-2N, 2-1N, 3-1N).
- Organize academic announcements, coordinate schedules, and manage deliverable reminders for a cohort of 50+ students.
- Support academic group projects, peer study initiatives, and problem-solving channels across consecutive semesters.

Project Manager & Developer — PUP BSIT Accreditation Portal **April 2026 – Present**

- Coordinate project requirements, development task distribution, and milestone timelines for a web-based portal supporting departmental accreditation records.
- Contribute to the implementation of server-side logic and validation workflows for organizing institutional evidence and criterion documents.
- Liaise with student contributors and faculty stakeholders to align software functionality with departmental compliance needs.

Lead Organizer — HackManila Community Nights **August 2026 – September 2026**

- Led event planning, student community outreach, partnership documentation, and program preparation for developer-focused community activities.
- Developed presentation materials and helped shape session themes centered on software development, technical workflows, and indie game production.

Executive Associate of Staff — DEVCON Manila Chapter **May 2025 – March 2026**

- Supported developer community gatherings through attendee registration, staff communication, and on-site operational assistance.
- Assisted chapter officers with administrative tracking, volunteer coordination, and logistics preparation for regional developer meetups.

EDUCATION

Bachelor of Science in Information Technology **August 2024 – Expected 2028**

Polytechnic University of the Philippines — Sta. Mesa, Manila

Senior High School — Science, Technology, Engineering, and Mathematics (STEM) **August 2022 – 2024**

National University — Laguna

- Research Project: *Thermodynamics Adventure (THEA)* — Educational digital game exploring the four laws of thermodynamics.

SELECTED PROJECTS & RECOGNITION

- **PH100 Under 30 Honoree (2026):** Recognized by StellarPH under the PH100 initiative celebrating contributions to tech community building.
- **Official Selection, PGDX Indie Game Stars (2026):** *Code White: The Observer* selected for showcase exhibition at the Philippine GameDev Expo.
- **World Computer Hacker League (WCHL 2025):** National qualification track participant with *Thynkora AI* via ICP Hub Philippines.
- **TPG Solar Hackathon (2025):** National finalist in business analytics, preparing quantitative analysis supporting the team's software proposal.
- **Thermodynamics Adventure (THEA):** Interactive 2D educational game developed to simulate physics principles and thermal concepts.

VOLUNTEER & COMMUNITY EXPERIENCE

- **Programming Team Support Committee Manager:** Google Developer Student Clubs PUP (2024–2025) — Guided peer coding jams and Git version control workflows.
- **Technical Director:** Sintalento Volunteer Network (2025) — Supported technical, audio mixer, and live broadcast operations for community events.
- **Graphic Designer:** Iskolaris Volunteer Network (2025) — Designed promotional visual assets and layout collateral for volunteer drives.
- **Event Operations Staff:** Provided logistical and floor coordination support for IoT Philippines Conference, Philippine Blockchain Week, and Unleash Philippines (2025).
- **Panel Judge & Host:** CCIS Week 2025 Game Jam — Evaluated student game mechanics, design stability, and hosted presentation segments.

TECHNICAL & PROFESSIONAL SKILLS

Programming & Web: C, C#, Java, JavaScript, TypeScript, Python, HTML5, CSS3, SQL.

Game Development & Engines: Unity Engine, gameplay prototyping, mechanic implementation, collaborative game production.

Creative & Design Tools: Adobe Photoshop, Adobe Premiere Pro, Adobe After Effects, Canva, Aseprite, Blender.

Collaboration & Tools: Git, GitHub, Google Workspace, Trello, Notion.

Professional Core: Project coordination, student team leadership, documentation, event operations, stakeholder liaison.
